SUBJECT: TURKMENISTAN: UNODC INTRODUCES ON-LINE
COORDINATION TOOL

¶1. At its quarterly Law Enforcement Donor Coordination Meeting on October 13, UNODC Ashgabat introduced the agency's new internet-based ADAM (Automated Donor Assistance Mechanism) website to participants. Members of UNODC's Turkmenistan collective will now be able to access current information about all counter-narcotics related activities and expenditures in countries located on the Afghan opiate trafficking routes. The new web-based device was created to facilitate coordination among Paris Pact Initiative countries and may be accessed at adam.unodc.org.

¶2. COMMENT: Counter-narcotics activities are a priority of many of the foreign embassies and international organizations present in Turkmenistan. We welcome UNODC's efforts in this area and believe the new internet database will assist donors in focusing their efforts in this sphere. END COMMENT.
